<b>TITLE</b> <b>ACORD 140 (2010/05)</b>	<b>Property Section</b>	<p>The title of the form. ACORD 140, Property Section, has been designed to handle the basic underwriting and rating needs for commercial property exposures.</p> <p>The Property Section accommodates two locations, with coverage and rating information recorded separately for each location.</p> <p>This form was designed to be used in conjunction with the Commercial Insurance Application - Applicant Information Section (ACORD 125). Much of the information for the Identification Section should match the data found within the Applicant Information Section of ACORD 125. Nevertheless, it is still important to complete it. Many companies separate the applications by line of business for rating purposes. Not completing this portion of the application makes it difficult to keep track of the full account.</p>
